

Lammac Polythene Life Jackets For Lambs

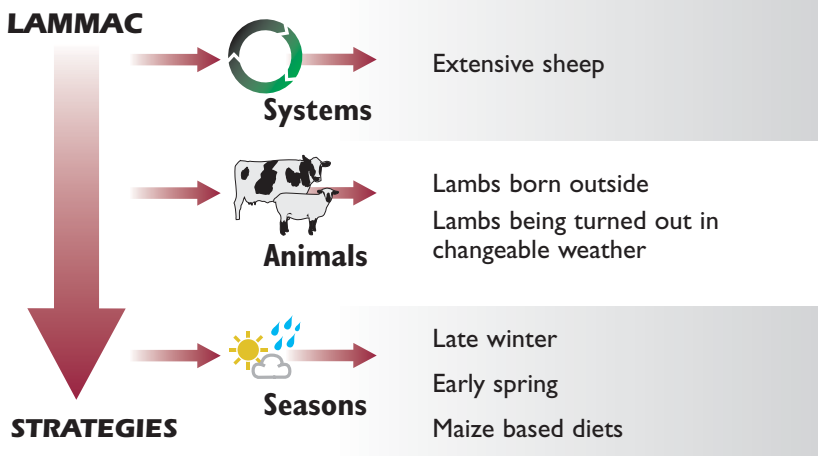

Description

Lammacs are polythene jackets which provide protection against the elements for a newly born lamb and help prevent hypothermia which is the major cause of lamb mortality in temperate regions such as the UK.

Colour	Pack size	Description
STANDARD BLUE	50	Vital protection for small and hill-breed lambs. For good visibility, in poor light or at long distance.
STANDARD CLEAR	100	In clear polythene. Farmers can see mark on lambs through jacket.
LARGE ORANGE	100	Vital protection for lowland or crossbred lambs. Orange gives excellent visibility against all backgrounds.
LARGE CLEAR	100	In clear polythene. Farmers can see mark on lambs through jacket.

When to Use Lammacs

Benefits

- Reduced risk of hypothermia
- Provide protection during un-forecast adverse weather
- No interference with mothering
- Marker pen in each pack
- Protection provided for a few pence per head
- Reportedly less fox predation in lambs wearing jackets
- Ultra violet light degradable
